M a d r a s

Sir,

I have the honour to address Government on the subject of a claim made by the Accountant-General from my Taluk ~~Board~~ Board of leave and pensionary contribution on behalf of the post of the civil assistant surgeon of the Karkal Hospital with effect from 1st April 1920.

2. Under rule 50, Instruction 68 of the Local Board's Manual, the liability of a Taluk Board has been fixed per month at Rs.190-3-8 plus 25 % of this sum to cover leave and pensionary contribution, but I have to state that from 1st April 1920 up to now, the Old Coondapoor Taluk Board and

after that this Board also, have not been paying to Government any leave and pensionary contribution but have been paying only the usual contribution at Rs.190-3-8 plus Rs.30/ towards the salary and charge allowance of the civil Assistant surgeon, in-as-much-as (i) the incumbents in charge of the hospital were all temporary hands and therefore not entitled to pension at the time (ii) Two temporary civil Assistant surgeons who were in charge of the hospital ~~were~~ for some time after this Board came into being have left service without pensions. In fact no further claim has been received, before the claim in question was preferred in May last, for leave and pensionary contribution either from Government or from the Accountant-general, in the past 2 years. I solicit orders of Government if the claim should be met by the Taluk Board in the circumstances stated above. I placed the question before my Taluk Board at its meeting on 19-8-1922 as there was no provision in the Budget for payment of this large sum of arrear contribution. My Board was of the opinion that contribution for the period during which temporary civil assistant surgeons were in charge- some of whom have since either quitted service or been ousted by persons demobilised- will not be a proper charge on the Board and ^{the Board was} accordingly reluctant to admit the charge in the absence of a Government order requiring the Board to meet the charge in view of the facts stated herein. If however the Government must think that the claim must be met by the Taluk Board, I shall have no objection to do so though I must say that it will seriously dislocate the finances of the Board and that the claim for anything more than a fraction towards actual leave contribution during the time that the hospital was in charge of this Board ~~during~~ appears unreasonable. I may also point out that the Budget of this Board has closed ^{with} fairly ~~(with)~~ large deficits, that the Government had to make a compassionate grant towards squaring the same and that no Budget provision had been made to meet this unforeseen charge. If still the Govern-

3
Government should consider that the Board has to make this payment the Board will have to appeal to Government, to make a further grant to wipe put the deficit incidental to this unforeseen charge. In the circumstances I solicit that the Government may be kindly pleased to pass orders waiving the claim referred to, and amending the rule so as to make the contribution payable from the date of the qualifying service of each medical subordinate.

3. The Local and Municipal Group Conference of the Western districts held at Mangalore early in October last have also pressed for an amendment of the rule — vide Resolution No:50/2.x.22. A copy of resolution of my Taluk Board is enclosed.

I have the honour to be,
sir,

Your most obedient servant,

for President.
